

More on Lightweight Main Bearings

Some pictures of actual Jubilee/Navigator/Electra main bearings

- 1) (L) this shows the normal 0.090" chamfer on the 'outer' face of the Drive Side main bearing,
- 2) (R) the special 0.125" chamfer on the 'inner' face is clearly visible.

- 1) (L) this shows the normal 0.090" chamfer on the 'outer' face of the Timing Side main bearing,
- 2) (R) the special 0.125" chamfer on the 'inner' face is clearly visible.
