

**Application For An Age Related Registration
Re-Assembled Original Machines Only
NOC2**

Where a vehicle does not have a registration number, you may apply for an age related one. Alternatively, if you require an age related number because of lack of evidence relating to the original registration, the age related number can be substituted for the original, subject to approval. DVLA will require proof of the year of manufacture and this is normally done by having an Official Date letter from the Records Officer. The decision of the Records Officers as to whether or not an application will be endorsed is final and if rejected, the Club fee is not refundable.
